KOND.MKT 680PF2000V700VAC R15 5% FKP1

Cena	5,20 zł
Dostępność	 dostępny: 24h
Czas wysyłki	24 godziny
Numer katalogowy	56017
Symbol producenta	FKP1_680PF2000V700VAC WIMA 99+ R15
Producent	WIMA

Opis produktu

Kondensator foliowy; polipropylenowy; metalizowany; impulsowy; 0.68nF (680 pF); 2000 VDC (700 VAC); 16000 V/usec; 6 x 12.5 x 18mm; R15mm; -55...+100°C; THT; 5%

FKP1 Polypropylene capacitors for pulse applications with metal foil electrodes, internally series connected for very high current ratings

- For extremely high pulse ratings because of metal foil electrodes and metal sprayed end-surface contacts.
- Self-healing.
- Extremely low dissipation factor (tan delta) and ESR.
- High insulation resistance.
- Low dielectric absorption.
- Preferred applications: Dampening and commutation capacitors in switch mode power supplies, static frequency changes in drive and power electronics, deflection systems in monitors and TV-sets.
